WE'VE FINALLY FOUND THE ONNE

I'm a summer girl though and through. Give me the sun circa 30°C, a poolside, magazine and a cocktail (I'd love a Mai Tai, thanks for asking) and I'm happy as Kanye West with a mirror. Winter gives me the blues, and as for the scaly and itchy skin that comes hand in hand in dry, wrinkly hand – what's to like?

To combat the chill factor, I've been searching for a product I can commit to long-term that can help make me feel all summery, coconut-ty, ala-natural and cruelty-free all at one. Ladies, I think I've found The ONNE.

The ONNE collection is a naturally derived luxe collection of coconut-rich, antioxidant-packed scrubs and moisturisers. Formulated to get you glowing from top to manicured toe with organic, gluten-free, vegan ingredients (*note do not eat), The ONNE'S chemical-free formulas promise to trade tired, winter skin for a beautiful, on-point bikini-bod. OK, well maybe that's going a little overboard in delivery the bikini-body, but I promise The ONNE *will* fast-forward you into the summer of 2016 faster than you can say "I'll have another Mai Thai, stat" to the cabana boy.

The ONNE is available to purchase online at www.onnebeauty.com and via select stockists

You can win a pack of The ONNE including 1 x Moisturising Mask @ RRP \$49.00, 1 x Face Scrub RRP @ \$24.00 and 1 x Complexion Cream @ RRP \$48.00. Total pack RRP is \$122.00

To win, tell us where you want The ONNE to take you this summer.
