## NIMBLE ACTIVEWEAR

Inspired by the complementary forces of yin and yang, the Take Flight collection features soft navy and grey hues alongside the Nimble Activewear's distinctive signature prints to embody a delicate duality of edge and femininity. All Nimble Activewear products are lovingly designed in Australia and have been researched, designed and tested to help women get moving, get active and get healthy, all while feeling comfortable and stylish. Each Nimble Activewear performance piece features the brand's signature lightweight compression fabric to fit like a second skin and contain moisture wicking and quick dry properties to keep the wearer cool, dry and comfortable across all workouts all year long. Nimble Activewear products contain four way stretch and high lycra content for superior stretch retention and are designed to move with the wearer. Each performance collection features the brand's signature fabrics teamed with flattering prints and use of panelling to deliver a feminine and high-end aesthetic. ## SVVET

Australian activewear label, svvet, is bucking the athleisure trend with a range of workout wear designed for actual workouts, not fashion. Designed with simple colours and minimal branding, svvet argues the industry has become too fashion-focused, with performance and comfort often overlooked. Featuring a uniquely patented design, svvet's tights boast a high cut waist without the uncomfortable middle seam, which means no wedgies, no bunching, no fidgeting, and no readjusting. With high quality fabrics and a sleek, flattering design, svvet's goal is to give women the confidence to workout, distraction free. [www.svvvet.com](http://www.svvvet.com)
